1. Recycling Center Procedures and Proposed Updates

Mr. Lamantia reviewed the proposed changes for the recycling center which included continuation of the contactless drop off, discontinuation of the collection of Electronics and TV's and discontinuation of accepting oil. There are ongoing issues with MCWA accepting televisions and electronics at their site which is causing a continually growing pile of electronics at the Recycling Center. The Township previously began collecting oil which was able to be used in an oil burner. The township no longer has the oil burner and has now begun to be charged for the disposal of the oil, therefore our DPW Foreman has suggested the discontinuation of the collection. The Board agreed that all of the proposed items were acceptable and that they will consider them at the regular meeting for action.
